AI for your everyday business tasks.

DADA HUB | 31 October 2026 | 09:20-10:20 EAT
Useful prompts. Clear checks. A repeatable way of working.

DOWNLOAD ONCE, KEEP IT CLOSE

The written handouts are PDFs with selectable text. The CSV opens in a spreadsheet, and quote-calculator.html works offline in a browser. Live AI products and the published website still need their usual access.

File	What it is for
01 / Presenter run sheet	Spoken cues, stage actions, timing and fallbacks.
02 / Live prompts	Complete prompts and follow-ups to copy and adapt.
03 / cleaning RFQ	The PDF source for the NotebookLM demonstration.
04 / Participant reference	The business day, checked values and a workflow worksheet.
05 / Prepared fallbacks	Checked reference answers, clearly labelled.
06 / Stock answer key	A print-ready PDF plus the original spreadsheet CSV.
07 / Automation recipe	A setup and testing plan for a connected workflow.
08 / Rehearsal checks	Observed passes, corrections, failures and venue preflight.
09 / Observed outputs	Actual responses from the product rehearsals.
10 / Tools by task	Task guides, tool comparisons and repeatable workflows.
11 / Reusable workflows	Four guided routines, editable masters and a marketing example.
12 / Marketing planner CSV	Three post ideas and blank owner/result columns.
Quote calculator / HTML	A working offline estimate calculator.
Presentation / PDF	The static presentation fallback.
